

Energy 24

Properties

Energy24 facilitates the mechanisms underlying physical and intellectual activity while respecting our biological rhythms due to the use of plant extracts, trace elements and vitamins whose traditional use is acknowledged :

- * Kola, guarana, green tea to favour vigilance and memory
- * Magnesium, vitamins B and C to help regulate the essential nutrients used during periods of stress and overwork
- * Ginseng to help invigorate the body of those weakened and restore the ability for physical work and intellectual concentration

Benefits

Targeted action on the treatment : Fatigue, convalescence, reduced vigour, stress, overwork.

24 hour action : recuperating sleep favoured, tonus and vitality reinforced during the day.

Total : it is more than a tonic, more than vitamins ! And 20 days of treatment - 13 active ingredients : 4 tonics, 7 vitamins, omega 3 and magnesium.

Concept

A great many natural or chemical tonics stimulate our physical activity and/or overexcite our activities but stop us from sleeping at night ! Others provide vitamins without any concern as to our life rhythms and daily needs. Energy24 is an alternative of synergic stimulation actions - day / regeneration at night with respect for our biological and circadian rhythms to optimise form and performance
