

Physiorhume

Properties

Strengthens the natural defences during cold spells. Well-being of the respiratory tract.

Physiorhume contains active ingredients released and activated by the simple dissolution in simmering water.

Their traditional use is recognised:

- Eucalyptus, marshmallow and liquorice to facilitate the well-being of the respiratory tract.
- Elder, ginseng and liquorice to reinforce the stimulate the immune defences.
- Ginseng to invigorate the body of weakened individuals.

Benefits

Targeted action: strengthens the natural defences during cold spells. Well-being of the respiratory tract.

Agreeable and new: tasty hot preparation. Soluble tablets. Natural and powerful: 5 titrated dry extracts day tablets x 1450 mg!

Concept

Current "cold, flu" pharmaceutical forms only act on the symptoms and are often made of pseudo ephedrine, which is not without adverse reactions.

Physiorhume is the first 100 % natural form that effectively fights against:

- the causes of the illness due to an immunostimulant effect combined with several phytoactives.
- The resulting symptoms.

Composition

Sorbitol, passion grapefruit flavour, fructose, elder flower extract 9 %, xylitol, eucalyptus globulus leaf extract 4 %, marshmallow root extract 4 %, modified potato starch, ginseng root 3 %, liquorice root extract 3 %, soluble tea, anti-agglomerates: mono-di-tri-glyceride of fatty acids.

Colorant: Caramel (E 150).

Average nutritive information:

For 1 tablet :4.50 kcal, trace proteins, carbohydrates 1.30 g, lipids 0.01 g

For 100 g :312 kcal, trace proteins, carbohydrates 88 g, lipids 1 g

Directions

Dissolve the tablet in simmering water (15-25 cl) by stirring for 2 to 3 minutes.

Drink the preparation hot outside of meals.

With the first signs of a cold (shivers), take 1 tablet 4 times a day outside of meals for 4 to 5 days.

Can be taken alone or in addition to the usual antalgics.
